

Student Video/Photo Competition 2013/2014

Competition Statement

UMSL students are here to learn, graduate, and leave with satisfying jobs. But these can be accomplished better if our students also find ways to enjoy their study time.

We want your view on how your education, life, and fun come together to accomplish your goals of getting education and graduation while hopefully enjoying yourself.

We are looking for 1-3 min videos showing your perspective, how education, life and fun fit together (or don't) for you here. We are openminded but looking mostly for the promotion of education here with some humor perspective.

We plan to announce winners in three different video categories: Computer Science, Mathematics, and open UMSL competition. Separately, we plan to have winners in a picture category.

Awards and Eligibility

Potential awards enlist about \$2000. We hope to have winners in each of the four categories, and we may have more than one winner per category. Winning videos will be awarded up to \$250., and winning pictures up to \$50.

The competition is open to all UMSL students as of any of the 2013/2014 semesters. Competition closes January 20, 2014. By submitting your media, you give us the rights to use the media.
